

WORK Co. LTD has introduced a new version of Emotion 11R, EMOTION 11R-FT. New 11R FT newer rim barrel forming technology called Flow-Forming. It is known here in the U.S. as Spun. The key benefit for flow forming is able to reduce the barrel thickness thus reducing the weight of the wheel without compromising the strength of the rim barrel. The 11R-FT is a good choice for Motor Racing use or at area where there are smoother roads. Unlike our competitors flow forming wheels. WORK flow forming wheel start with Low-Pressure cast, where some of our competitors use Gravity Cast. Low-Pressure cast has a denser material property over Gravity cast wheel, thus this allow greater strength advantage over Gravity cast with flow-forming barrel.

SIZE / PCD	Approx. Weight	SEMI-CONCAVE			DEEP CONCAVE	
		5-100	5-114.3	5-120 / 5-114.3	5-120 / 5-114.3	5-114.3
18 X 8.0	8.7 kg / 19.5 lbs	+50	+42			
18 X 8.5	9.2 kg / 20.6 lbs	+45	+45	+31		
18 X 9.5	9.6 kg / 21.5 lbs				+25	+15
Custom PCD	Not Available					

* Technical Note - 11R-FT 18 X 8.0 & 18 X 8.5 spokes protrude past the rim flange by 3mm. This is to allow greater brake clearance over non-FT 11R model.

Optional Accessories:
V29K2 - Black Valve Stem
V29R2- Red Valve Stem
V29B2 - Blue Valve Stem
11R Sport Decal - Red
11R Sport Decal - Blue
11R Sport Decal - White
Center Cap

Available Color	
BLKRC	Black Rim Cut
GTS	GT Silver

All Emotion 11R-FT include Black Valve Stem. Sport Decal, Center Cap and different color valve stem are sold separately.
